Albanian Police set up a checkpoint in the MEK camp

by **Albania Media**

June 30, 2023

On Thursday, June 29, the State Police established a checkpoint with vehicles and vans, which will examine all entrances and exits to the MEK camp.

This checkpoint is seen

as a measure by the Albanian authorities after the recent events in the Manza camp, and it is not known how long it will last.

We recall that the special structures of the State Police (RENEA, Antiterror, Operational, Shqiponja) landed

around 08:00 on June 20 in Manez, at the headquarters of the Organization of the MEK.

The purpose of this operation was to conduct checks and seizures in what was considered to be MEK's operational center for potential malicious cyber attacks.

The MEK's waning fortunes

by Western Bloggers

June 26, 2023

Following a raid on the fringe Iranian group's base, it's become clear that Western leaders view it as more of a liability than an asset.

The former vice president of the United States Mike Pence joined a long list of former U.S. dignitaries who have thrown their weight behind the National Council of Resistance of Iran (NCRI), a political front for the Mojaheddeen-e Khalk (MEK), a cult-like exiled Iranian opposition group with a history of human rights abuses and anti-American violence which merited it a place on the U.S. list of terrorist organizations from 1997 to 2012.

by Nejat Bloggers

June 22, 2023

As an international relations expert who has enough experience and knowledge in the external relations of the MEK, and as someone who has played a responsible role in the international

activities of this organization for 23 years around the clock, and fully acquainted with the function and mentality of its leaders, I would like to share my experiences with the governmental institutions of the Republic of Albania.

...

Now you can clearly see that within a few hours after the incident, statements were published by the MEK propaganda media, which were completely false.

Letter of CEO of Nejat Society to the statesmen of Albania

by Nejat Bloggers

June 3, 2023

In the many meetings that I have had with these families in different cities of Iran, questions have been raised by them that are related to the issue of "Albanian national sovereignty". I

am addressing these questions to the honorable statesmen of the Republic of Albania, so that maybe if it is considered appropriate, I will receive an answer from whoever is concerned.

...

Now, the main question

is, does the Albanian government have enough knowledge of the actions of this group in their camp and its internet activities from Albanian soil?

MEK Camp, center of conspiracy against Albanian gov.

by Nejat Bloggers

June 27, 2023

Until June 20th, 2023, the headquarters of the MEK was a center for conspiracies and threats against Iran. For about a decade, from a NATO country in the European territory, the MEK have been targeting the Iranians' mental and physical security using the remote isolated camp with high speed and unlimited Internet offered to them by the Albanian government.

...

Unfortunately, the MEK has been successful to force the host countries to give up on their right to sovereignty. There are two reasons: First, these countries were not willing to use time, energy and resources to get rid of the MEK, Second, they seem to be under pressure for not to be known as supporters of the Iranian government.

Based on previous experiences such conditions do not seem to be sta-

ble. As usual, the MEK claims that it is a plot made by the Islamic Republic. However, there is no evidence to prove the group's claims. It is a sensitive situation that requires the all-round vigilance of the Albanian statesmen. They should not fall short against the bullying of the MEK and consider the national interests as their priority and do not give up the game.
