Congratulatory letter of the CEO of Nejat Society to the new Albania's Minister of Interior

July 18, 2023

On behalf of the expectant families of the members of the MEK, who have been eager to connect with their loved ones for decades, I would like to congratulate you on your appointment as the Minister of Interior of the Republic of Albania and wish you continued success in your new position.

The MEK violates the most basic human rights of its members, including the right to communicate with the family, and this issue has imposed severe suffering and deprivation on their families for decades, and unfortunately, despite the fact that the families have repeatedly written to the Albanian statesmen and requested to establish this communication, but no attention has been paid.

Rama warns to expel MKO if it uses Albania for war against Iran

by [Press TV](#)

July 9, 2023

Albania's Prime Minister Edi Rama says the Mujahedin-e-Khalq Organization (MKO) must leave the country if it wants to use Albanian soil to fight against Iran.

"We have had MEK in our country for several years. They are welcome but on the condition that they do not use Albania as a platform for their political operations. Our Iranian guests have repeatedly violated this agreement", said Rama in an interview in the German media "Der Spie-

gel". He added that Albania has no intention of being at war with the Iranian regime as he commented on the action of the Albanian police last week in the MEK camp.

Fatemeh Mohabati attended the sit-in in front of the office of the International Committee of Red Cross in Tehran. She is the mother of Azadeh Saboor, a member of the Mujahedin-e Khalq

(MEK/ PMOI). Fatemeh Mohabati has not seen her daughter for over 20 years.

Azadeh was deceived to join the MEK in Iraq when she was a young newly married girl. Her husband left the group a few years later but Azadeh was coerced

to stay. Her mother has taken different actions in order to find a way to visit or even contact her. Her cries for help in front of the ICRC office is heart-breaking.

Evidence on MEK's unpopularity

by [Nejat Bloggers](#)

July 22, 2023

There are numerous facts on the Mujahedin-e Khalq (MEK)'s unpopularity, not just among ordinary Iranians but rather among Iranian dissidents and opposition figures, and this unpopularity is growing.

For the MEK, this Sum-

mer did not begin properly. Their headquarters in Albania called Ashraf 3, was raided by the Albanian State Police. The camp's residents clashed with forces violently. The Move by the Albanian police came after the French government banned the group's planned annual gathering in Paris.

The MEK could finally run its multi-million-dollar rally based on a French court order, but it could never play the part of a popular opposition group against the government in Tehran.

The double face of the MEK

by [Tehran Times](#)

August 9, 2023

Is the Mujahedin-e Khalq Organization (MEK) a moderate opposition party or a terrorist organization

While presenting itself as a moderate opposition in the eyes of West, the MEK contin-

ues to perpetrate terrorist actions in Iran for the overthrow of the I. R. I., as evidenced by their own official website, where the attacks are described as heroic acts.

An image therefore very different from the one that is sold to Western public opin-

ion, and of which we want to spread awareness through this article, so that don't fall into the trap of supporting a terrorist organization like the MEK just yet.

Bijar Rahimi's letter to the Minister of Interior of Albania

August 8, 2023

Greetings and regards

I am Bijar Rahimi, a former member of the Mojahedin-e Khalq Organization (MEK). I escaped from the organization's camp on July 21, 2023, and on the same day, I approached the police station and introduced myself and announced that I do not wish to return to the camp and I want to join ASILA.

First of all, I have to thank the very good and reassuring assistance and treatment of the police, who, considering the fact that I had a lot of fear, assured me that I will be completely safe, and what the MEK said about ASILA and Nejat Society, and the conditions of outside the camp and the behavior of the Albanian police are completely false.
