## A new year is a powerful occasion:

It's a time when we reflect on our gratitude for the past and our hopes for the future. And it's a chance to welcome a fresh start to reinvigorate our enthusiasm for chasing goals and dreams.

With so much pressure on the moment, it can be hard to come up with just the right words to express new year wishes for friends, family, and cherished co-workers.

That can be especially true if the past year's challenges still linger for your loved one trapped in the MEK camp in Albania.

Cheers to more shared successes in the new year!

Wishing you and yours some well-deserved downtime and a very happy new year to come.

Cheers to health, happiness, and prosperity in 2021!

Wishing you and yours a safe, healthy, and prosperous new year!

Wishing you and yours a happy, healthy, and abundant 2021!

## The New Scandal of the MEK: Robbery of French Charities and Churches

for the Costs of Speakers  
And Preparing Ceremo-  
nies Against Iran

American Herald Tribune,

December 16, 2020

Are Giuliani, Bolton, and  
the other speakers of the  
Mojahedin-e Khalq cere-  
monies involved in this  
case?

The cost of financing the speeches of Giuliani, Bolton, parliamentarians, etc. in the Mojahedin-e Khalq ceremonies, the cost of financial aid to parties such as the Spanish Right Party (Vox), the cost of some reputable media to cover the Mojahedin-e Khalq news, etc. raise an important question in the minds of many journalists that where is the source of financing these expenses, which cannot be afforded by many prominent and profitable companies in the world, and where does the MEK provide this money?

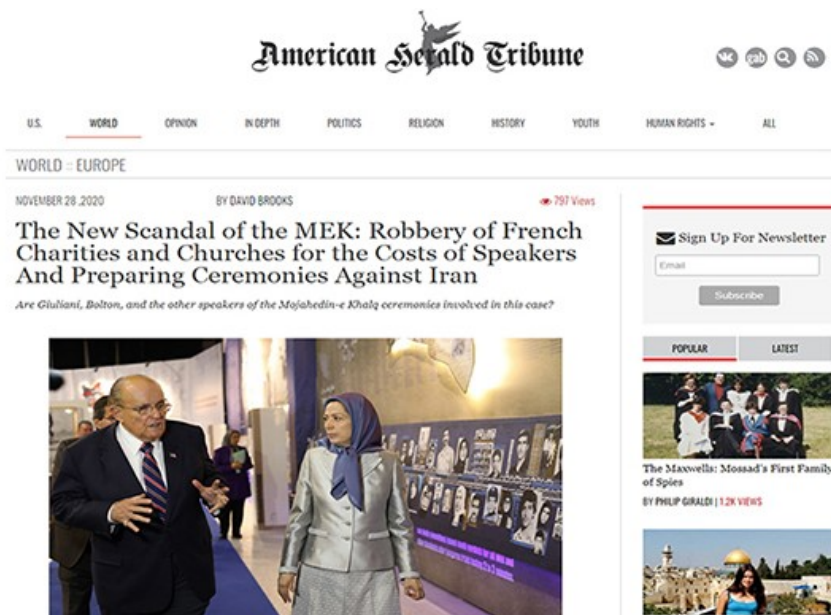

Although some journalists claimed Saudi Arabia and Israel had provided financial as-

sistance to the group, even these actors could not afford the huge costs due to budget constraints.

Journalists were looking for answers in 2003 when the French security system arrested many of the group's cadres, but the case remained closed for obscure reasons.

to the French police and present his information and knowledge about the abuse of this group of French charities and churches of that country and money laundering of the group, and file a lawsuit against a group of which he was once a member.

Now, two decades after the 2003 arrests, a member of the group, Yaghoub Meraji, announced on his Twitter that he had worked for the Mojahedin since the beginning of the Iranian revolution and returned to France after the joint Mojahe-din-Saddam war against Iran and has been present in the bases of this cult, intends to refer

din-e Khalq and the individuals and parties that have received money from this group.

If Meraji's statement is true, that part of the cult's expenses was covered by the misuse of charities and churches, that is, the money that should have paid to the socially damaged individuals would have been the cost of

travels and accommodations and speeches by prominent political figures such as Giuliani, this case seems to be much more important than the Mojahedin-e Khalq case of money laundering and fraud, and the entry of political observers of France and other European and American countries are necessary, which should examine why some politicians, despite political experience and sufficient knowledge of legal capacities of the parties and groups, with what justification, despite the many ambiguities about the financial activities of the Mojahedin-e Khalq, participated in the ceremonies of this group and received money from it.

All these answers are subject to the official comment of the French security systems on the veracity of Mr. Meraji's statements and after that, the monitoring organizations would enter the field of investigating the dark and ambiguous activities of some parties and individuals related to MEK.

## Covid-19 In MEK Camp – Needs Urgent Intervention

**December 19, 2020**

### Defectors of Mujahedin-e-Khalq Organization

#### **Honourable Director of Albania's Immigration Office**

We would like to inform you that we, a group of former members of the MEK Organization, are concerned about the situation of our former friends who are currently members of the MEK.

During the outbreak of COVID-19, the organization keeps its members in a closed area, which makes the conditions more dangerous for the spread of this disease among people.

You are aware that this organization has closed relations, and has all the characteristics of a mind control cult.

The people who live in this cult collective do not have access to the free world and medical centres. This raises our concerns about the health and wellbeing of the people living in the Manez camp.

In the current situation, with the threat of COVID-19, the lives of these people are in danger. Unfortunately, this organization does not care about the lives of these people.

Due to the dangerous conditions inside the camp and the irresponsible behaviour of the cult leaders towards the lives of the members, we issue this warning, and we call for the prompt intervention of the relevant authorities of your country and Albanian human rights organizations to take control in order to save the lives of these people.

## A Terrorist Organization or What? MEK Cooperates with ISIS to Gain Power

The interview with Mr. Yaghoub Meraji

**American Herald Tribune,**

**December 29 2020:**

**BY Alireza Niknam**

The Mojahedin-e Khalq terrorist group has been constantly changing its face since 2003 with the fall of Saddam Hussein, and has used every means to abuse its host, and always turning its back on its host in critical moments.

**They have used every means to strike at their country, such as collaborating with Saddam in the war against Iran, collaborating with the United States and Israel and killing Iranian nuclear scientists, spreading lies, and claiming human rights abuses while stationed in Iraq, France and Albania. These are all part of the dark face of the MEK, a group that has assassinated more than 12,000 Iranians, thousands of Iraqi Kurds, and Americans.**

It is worth mentioning that the MEK has always betrayed its host countries, such as betraying Saddam and leaving him alone in the war with the American coalition and threatening the Albanian people to remain silent in the face of MEK's illegal actions and widespread fraud and money laundering in France, which once ended in the arrest of Maryam Rajavi, and now in 2020 their case is being investigated for fraud in France. In this regard, we have an interview with a former member of the Mojahedin-e Khalq, Mr. Yaghoub

Me'raji, who has a history of translating Mojahedin correspondence with French officials.

**Alireza Niknam:** You claim that you witnessed the financial corruption of the organization and the terrorist criminal acts of the MEK group. Why, after all these years, have you recently revealed the nature of the MEK?

**Yaghoub Meraji:** Silence was enough since the true nature of the cult of MEK became clear to me that they seek to gain pow-

bombing and military attack on my country's infrastructure.

**Do you confirm that the organization does the brainwashing?**

During the life of the cult, two factors are considered the most important strategic goal, one is extensive and permanent brainwashing concerning members and supporters within the cult and one is betrayal and cooperation with the enemies of Iran's existence

er in any form and by any means.

This cult, and especially its leadership, have become the enemies of the existence of Iran and the people of my country.

Extensive and innumerable betrayals against my country cannot be compromised and silenced, and every Iranian who cares about the interests of his country, with all his or her might to stand, has a duty against any religious-political current of thought that seeks to impose more sanctions on the people and even demand

in relation to the outside of the cult.

**Recently, some American officials in the post-election era have taken positions against the cult of MEK. Have your actions been along with the new American government, or was it your personal or voluntary action?**

The strategy of the cult of MEK is to live in the gap between the problems of the countries with the Islamic Republic of Iran and to advance this strategy, everything is al-

lowed, even betrayal and sedition, and cooperation with any individual or group or foreign government, whether democratic, republican, or dictatorial regimes such as Saddam Hussein, King Abdullah, or King Salman. The cult is even willing to cooperate and support ISIS to gain power.

I could not accept that the Rajavi cult would one day support ISIS to achieve its goals and cover their terrorist operations with the media and call them the Free Army.

**Recently, a program was broadcast on Radio Farda about the social status of the MEK, in which the participants attacked the Mojahedin Khalq Organization. First, what is your opinion about the participant's beliefs, and then what is your personal opinion about the social status of MEK?**

I was not aware of this plan, so I cannot comment on it, but I am sure that since June 1981, the cult has been fighting for power by declaring an armed struggle against the newly established Islamic Republic of Iran, which was also defending the country against the armed invasion of the Iraqi army, entered a phase of miscalculation and strategic error and confused Iran with Latin American countries.

After the failure of this strategy and the disappointment of the Iranians' cooperation with this cult during the urban guerrilla war phase, the cult was forced to betray, according to the idiom, "My enemy's enemy is my friend", and has comprehensive cooperation with other countries that had problems

with Iran.

**Considering your presence among the MEK members for many years, in your opinion, which figures and European governments support the Mojahedin Khalq Organization?**

As far as I know, before the fall of Saddam Hussein, the main arms-financial-logistical supporter of the cult was Iraq, after that, due to the nature of the group which was based on living in the problems of the countries with the Islamic Republic of Iran, it changed to a trading cult, now Saudi Arabia has filled the empty place of Saddam Hussein for the MEK and gives the most media coverage in the soft war against Iran to this cult.

I do not know that this treacherous cult has reliable support among Western governments or not, but it invests in the way of infiltrating the body of Western society and reaching the Parliamentarians. In this case, the Albanian government, under pressure from the US government, has agreed to cooperate and serve the cult.

**You have been one of the main translators of the organization for correspondence with the French authorities. How much do you think the French authorities pay attention to the opinions and letters of the Mojahedin Khalq Organization?**

The cult has different sections, I worked with an affiliated NGO under the name and abbreviation of AVDH (Association for the Defense of Victims of Human Rights Violations) for a year.

**By pointing to Western sensitive subjects like human rights, the cult tried to influence Western parliamentarians and representatives to take a stand against Iran with misleading news and content, which, of course, was more for the cult's domestic usage than its dubious international influence. There is no doubt that the concerned countries also acted against Iran for their national interests.**

**In the correspondence that you translated for the organization to reach the European authorities, were there any cases of falsehoods and lies? Explain in this regard?**

After the disconnection between the cult and the Iranian society, to compensate for this lack, the cult inevitably turned toward foreign sources and in return, to gain the support of these governments, was willing to cooperate and even betray their own country.

In one of your last tweets, you claimed that some parliamentarians and mayors and their representatives received gifts from the organization. Was this gift a bribe? Please explain in this regard.

The cult is willing to make any concessions to advance its goals, and it does so in a variety of ways, whether in the form of bribes, holding parties, or other means.

Yes, it was bribery, this is a common practice in the cult, and in this way, the cult has infected a large number of deputies and parliamentarians.

# CORONA CRISIS IN MEK CAMP IN ALBANIA

**Ebrahim Khodabandeh,**

**2020/12/13**

**Corona crisis in the MEK's closed and isolated Camp Ashraf 3 in Albania**

**Families announce their readiness to send any possible assistance**

**Letter from the CEO of the Iranian Nejat Society to the representative of the WHO in Albania**

**Representation of the World Health Organization in Albania**

**Greetings and best regards**

On behalf of the suffering families of members of the [Mojahedin-e Khalq Organization \(MEK, MKO, NCR, NLA\)](#), I would like to draw your attention to an emerging humanitarian catastrophe due to the spread of Covid-19 in the MEK's closed and isolated Camp Ashraf 3 in Manez, Albania.

The alarming news coming from inside the camp indicates that many, estimated to be half the population, have contracted the disease and some are in a critical condition. According to these internal reports, prominent members such as Mahmoud Atai, Ahmad

Hanifnejad, Javad Khorasan, Shahin Haeri, Ensieh Goldoust, Farzaneh Maidanshahi, Marzieh Hosseini, and many others who are elderly, are being kept in inappropriate conditions.

Germany specifically to the camp, which apparently was not enough and much more care was needed. Families are eager to find a way to help and send aid to members inside the camp.

Reports emphasize that a very high level of fear and anxiety prevails in the camp. It goes without saying that after the defeat of US President Donald Trump in the U.S. elections and the bleak outlook for the future of the organization confronting the members, an atmosphere of panic and stress has developed, which intensifies the progress of the disease. The members' lack of access to the outside world has greatly worried their families who are prevented from contacting them.

We also learned that some medicine had been sent from

Another issue is the MEK's withholding of news about what is happening inside the camp, which adds to the concerns of families. It should be noted that between 2016, when the MEK transfer to Albania was completed, until 2019, an average of one person died in the camp every two months. But recent images of the MEK cemetery in Albania show that at least 10 people have died in the past five weeks.

According to information we have obtained, people such as Hassan Zarei, Hassan Salahandish, Gholamreza Pourhashem, Afsaneh Pichgah,

Ruhollah Ramvaz, Khalil Hagh Hosseini, Mehdi Hagh Hosseini, Mohammad Qoli Ehsani, and a number of others have died in recent weeks from coronavirus.

A serious problem regarding the MEK camp is the crowded and intensive life and non-observance of health regulations, which greatly increases the speed of disease transmission. Also, the lack of monitoring inside the camp has further caused and accelerated the spread of the disease.

In this regard, it is necessary for the [Albanian government](#) and the World Health Organization to enter into the matter and investigate the issue and implement the necessary monitoring. It is also necessary to allow families to communicate with people inside the camp, which has been blocked by the MEK with the support of the Albanian government, so that families can be aware of the health and wellbeing of their loved ones.

## SECOND LETTER TO THE COMMITTEE ON ENFORCED DISAPPEARANCES (CED)

BY [Ebrahim Khodabandeh](#), 2020/12/02

**UN Committee on Enforced Disappearances (CED)**

**Greetings and respects,**

In your communications about the complaints of the families of the members of the Mojahedin-e Khalq Organization (MEK, MKO, NCR, NLA) against the Albanian government you have responded that:

**“The Committee on Enforced Disappearances (CED) is the body of independent experts which monitors implementation of the Convention by the State Parties.”**

The Republic of Albania is a State Party and has signed the Convention. So, the Convention does apply to Albania. It has been noted that all State Parties are obliged to submit reports to the Committee on how the rights are being implemented.

It should be noted that in accordance with article 31, a State Party may declare that it recognizes the competence of the Committee to receive and consider communications from or on behalf of individuals subject to its jurisdiction claiming to be victims of a violation by this State Party of provisions of this Convention.

The families who wrote to you and complained against Albania are doing so on behalf of individual victims of a violation by the MEK based in Albania which is hiding their loved ones and has disconnected their contact with the outside world, particularly their families.

You also suggested that “in addition to the reporting procedure, article 32 of the Convention provides for the Committee to consider interstate complaints”.

Hundreds of complaining families preferably desired that the Islamic Republic of Iran would file their complaints collectively on their behalf, and they demanded so by writing to various authorities. But unfortunately it seems that the Iranian government is not so eager to spend time and effort on this subject.

You also demanded “**information regarding exhaustion of available domestic remedies**”. In all cases the families have written to various Albanian authorities and demanded any form of communication with their loved ones. Unfortunately all these letters and emails are left unanswered.

You might be aware that the Albanian government does not grant visas to Iranian citizens by demand of the MEK. Therefore, the families cannot travel to Albania in order to further try domestic remedies.

Once again I, on behalf of hundreds of suffering families who have sent their complaints along with relevant photos and documents individually, urge you to speed up the process of dealing with the files and find a means of communication with their loved ones who are forcibly disappeared in Albania.

**Kind Regards,**

# MAY GOD SAVE ALBANIA FROM THE CURSE OF THE MARYAM RAJAVI CULT

**Olsi Jazexhi and Gjergji Thanasi,**

**Gazeta Impakt, Tirana, Albania,**

**December 03 2020**

Dr. Olsi Jazexhi discusses with Gjergji Thanasi the threat that Albania is facing after the assassination of Dr. Mohsen #Fahkrizadeh in Tehran by a terrorist group. They discuss the possible involvement of the Iranian Mojahedins and their leader #MaryamRajavi in this terrorist attack and the dangers that this terrorist action brings to Albania.

They analyze the transformation of MEK from an asylum seeking group to a potential terrorist monster in Albania, its illegal activities and the shameful support that the Albanian government gives to them while it jails and persecutes Albanian Muslims for any simple insult that they make against Israel on their Facebook postings. The discussion tries to understand future scenarios and false flag terrorist attacks that MEK might do in the future in order to help Trump administration and Israel to produce a war with Iran. They analyze the possible changes that the Joe Biden administration will bring to the USA policies towards Iran and towards the jihadi activities of MEK from Albania – if #MEK and Israel do not do any surprise against the American democracy in the coming weeks. Examples are given how MEK has created fake terrorist news against Iran from Albania and how the MEK military command might do a false flag terrorist attack in Albania or Europe if they will be asked to by their sponsors.
