Gholamali Mirzai managed to return to his son and wife in Iran after three decades.

2021/01/09

[Gholamali Mirzai](#) had been a POW in Iraq and managed to escape the MEK after he went to Albania.

Mirzai gave interviews to the BBC, Al Jazeera, The New York Times and others, explaining how the POWs were handed over from Saddam to Ra-javi and forced to work against their country.

Inside This Issue:

------------------	---

Ironically the [MEK tried to whitewash his return](#) by claiming that he was with them in Albania willingly and the moment he contacted his son and wife, he collapsed and became an agent of the regime.

Stupidly however, after he escaped the camp but before he returned to Iran, they were already claiming he had been an agent of the regime when he was in Iraq.

MEK have been doing a lot of work with the Albanian authorities to stop him leaving the country – preventing him getting documentation.

With the help of the ICRC and UNHCR Mirzai persisted to [force the Albanian government to give him papers](#), which they finally did.

The latest deaths the MEK faces in Albania

Democracy and Human Rights According to Maryam Rajavi and Rudy Guilliani

January 23, 2021

Dr. Olsi Jazexhi discusses with Gjergji Thanasi the latest Covid19 deaths that the Mojahedeens, #MaryamRajavi cult – friends of #RudyGiuliani are facing in Albania. MEK is flooded with deaths but these deaths are not recorded or transmitted by Al-

banian authorities. MEK is burying their dead in villages of Tirana, Durres, probably inside their camp and now they are trying to set a new graveyard in the town of Manza, in Durres.

However their new graveyard has sent the inhabit-

ants of Manza to protest the illegal graveyard. They want MEK to bury their dead inside their paramilitary camp. On January 14 the inhabitants of Manza protested publicly the land grab by MEK. Many Albanian media transmitted the protest.

However, two days later media and television like Ora News, Durre-siLajm, Syri.net, were forced to delete their videos and news. The Mojahedens, #Freelran

gang which pretend to bring democracy to #Iran are supporting censorship and autocracy in Albania. They are colliding with the Albanian government which helps them to:

1. Have no check on mojahe-

deens who die,

2. Hide their dead,

3. Bury their dead illegally,

4. Blackmail Albanian journal-

ists who report their illegal activities,

5. Use quisling Albanian media to attack Albanian citizens as agents of Iran when they protest against land grab and illegal activities that MEK does in Albania.

The discussion of MEK's attack against freedom of media and democracy in Albania is compared with the censorship that Big Tech is doing against #RudyGiuliani and #Trump in the United States. Olsi appeals to Rudy Giuliani to teach his good jihadi friend Maryam Rajavi to learn

what democracy and human rights are. Rudy who complains about tech censorship in the United States must first ask his jihadi friends in Albania to not censor the Albanian media and not blackmail Albanian journalists.

An appeal goes to organizations like Reporters without Borders @RSF_inter who while they condemn China, Russia etc and their threats against journalists, they should do the same against the mojahedeens and their blackmails against media in #EdiRama's #Albania.

Coronavirus has infected the whole of Camp Ashraf 3

2021/01/09

Instead of using quarantine to control the spread, Maryam Rajavi and a few of her inner circle quarantined themselves to keep safe.

She and the few members who don't have the virus are quarantined and have limited contact with a few safe layers outside. She and they are tested, but not the others. It is said she has paid for vaccine for herself and a few others and left the rest of the organisation to die.

Rajavi likens the survival of the MEK to the survival of bees who depend on the survival of the queen, not the drones.

This week MEK announced the [death of Saideh Shahrokhi of COVID-19 in Albania](#). Although aged over 60 years, the photograph used was from three decades ago. Every week a few members are dying and commentators who knew them express their condolences. But Saideh – along with her sisters Sedigheh and Hamideh – was one of the most hated people in MEK. She was notorious for the nasty treatment of members, including beating and swearing and issuing punishments. In her case, commentators have been pouring out their feelings of hatred and disgust and saying good riddance to her.

Saideh was the wife of Abol Ghassem Rezai (aka Mohsen) who separated due to the forced divorces. Famously in a meeting she defended the divorces saying, 'we got divorced, but soon we will rescue Iran and everyone there will get divorced, and then we will spread throughout the whole world and the whole world will get divorced, and you men who don't want to get divorced will have nobody to marry anyway.'

Is MEK Being Dismantled ?

January 25, 2021

The Rajavi cult based in Camp Ashraf 3 in Manez is experiencing a crisis situation, which could possibly lead to the dissolution of this former terrorist organization. Mass infection with Covid-19 among cult members is causing relentless casualties, greatly undermining the morale of the members.

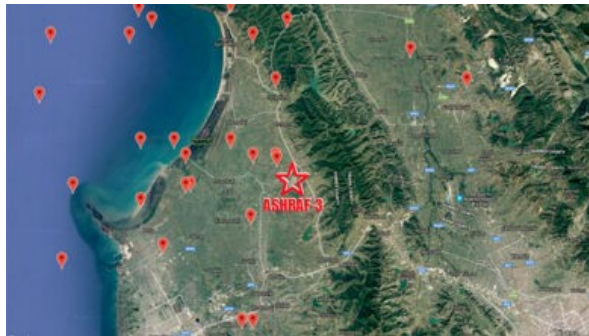

MEK members are increasingly coming to realise the dog's life they live in Camp Ashraf. They are being punished by their commanders for very banal reasons such as, communicating via the "Telegram" app with their Iranian friends who no longer believe in Maryam Rajavi's tales of a quick victory and that "regime change" in Tehran is very close.

The members of this cult, who are being ordered by Maryam Rajavi and her "henchmen", to become spies and "denouncers" of their friends, or even of their Albanian friends, or else they will be cut off from the cult, prefer to preserve their honour and dignity rather than spy on their Iranian and Albanian friends and comrades.

By the direct order of Maryam Rajavi, two of them had payments of 30,000 Lek per month cut off and were thrown into the street.

Mr Mansour Barahoui, having been a soldier in the ranks of the 'Artesh' – the regular Iranian army – was captured as a POW and taken by MEK soldiers who fought alongside the troops of Saddam Hussein, the dictator of Iraq, against their Homeland Iran. Mansour, from the day he was taken prisoner until 5-6

days ago, i.e. for almost 32 years, has been a member of the MEK. Suddenly, he was deprived of a monthly payment (alms) of 30,000 Lek, (240 Euros) by the MEK. He was not only deprived of this payment, but also ordered to leave the apartment immediately, where he lived in Tirana with another member of the MEK. In the midst of winter, in these rainy days, an almost 53-year-old was forced to sleep under the bridge on the banks of the Lana River. After almost 32 years in the ranks of the MEK, Mansour was left with only the clothes he was wearing!

What was Mr Mansour's crime for which he was being punished so severely by Maryam Rajavi? According to MEK commanders, Mansour had refused to make statements in front of cameras, in which he would curse and slander his friends and comrades who had already left the Rajavi Cult. Mansour had committed another sin: He refused to report (spy on) his Iranian comrades as well as Albanian acquaintances and friends. In the following, we will deal in more detail with this "hobby" of the Rajavi cult to carry out espionage activities in the territory of the Republic of Albania.

Readers should be informed that the payment of about 240 Euros per month does not

come from the pockets of Maryam Rajavi, but it is money that the UNHCR (United Nations High Commissioner for Refugees), according to the agreement signed with the Government of the Republic of Albania, should pay to the individual Iranians who were transferred from Iraq to Albania.

So, Maryam Rajavi, after using these people as slaves for 30 years, or at least as serfs, now manages to steal the alms that the UNHCR has granted to these unfortunates. This is the real face of Maryam Rajavi! A petty thief, who even steals under the guise of "comrade" of the ideology, a thief, who steals 5 lek from her subordinates, with whom she would supposedly change the regime in Tehran and free the Iranian people from the yoke of the mullahs. An ordinary thief who has also removed from us a revolutionary and a saviour of the people of Iran. Shame and cowardice! For more information, readers can consult the photos and accompanying documents, which illustrate the case of Mr Barahoui.

Mr Khalil Ansarian is a 62-year-old man who at the age of 18, being a soldier in the ranks of the Iranian regular army (Artesh), was captured by the troops of dictator Saddam Hussein on the third day of the Iran-Iraq war (September 25, 1980). Mr Ansarian spent several years in the prisoner-of-war camps of Saddam Hussein's Ba'athist regime. Since he had completed medical high school in Isfahan and since Arabic was his mother tongue, Mr Ansarian

Is MEK Being Dismantled ?

served as a nurse in the POW camp. He became part of the MEK Organization after being promised that, if he joined this organization, he would have the right to go to Europe if he did not like the organization.

In fact, for about 30 years Mr Ansarian became a slave of the MEK organization, serving as a nurse and even as a dentist at Camp Ashraf. He was also part of the MEK's foreign relations bureau, as he was a "native speaker" of the Arabic language (classical and contemporary Arabic). In another post we will introduce the reader to some interesting facts about the MEK's relationship with Saddam Hussein's regime and the people of Iraq in those years!

The same as Mr Mansour Barahoui, Mr Ansarian was also asked by MEK commanders to spy on their Iranian and Albanian comrades. He was also asked to make public statements to camera, in which he should curse and slander his friends. Mr Ansarian, as a man of dignity, did not accept such a humiliating offer. The MEK responded by cutting the monthly payment of 30,000 Lek (approximately 240 Euros). Already Mr Ansarian lives with sweat on his forehead in Tirana. Of course life is not easy for him. Resuming your life after you turn 60 is a very special challenge, but still Mr Ansarian is optimistic about the future because he is a free man in Tirana. He is no longer one of the thousands of serfs of Maryam Rajavi, the head of the MEK Cult. After almost 30 years, Mr Ansarian, after leaving the ranks of the MEK (then located on the outskirts of Tirana), had the opportunity for

the first time to talk on the phone with his elderly parents and 5 brothers and 6 sisters. During the time that Mr Ansarian was the slave of the couple Masoud and Maryam Rajavi, his brothers and sisters grew up, got married and now Khalil has 36 grandchildren in Iran. The Rajavi cult stole 30 years from Mr Ansarian, but he is optimistic and even happy that he is finally managing to live a new normal life after 30 years of nightmare in the ranks of the former terrorist organization MEK.

Does the Albanian SHISH have a duty to fight foreign intelligence networks in the territory of the Republic of Albania?!

In both the cases which we reported above, the Rajavi Cult asks its members, who live in Tirana, for informative reports on other Iranians as well as Albanians. This is a very serious fact. We emphasize that the agreement of the Albanian Government for the transfer of MEK members from Iraq to Albania does not provide that these persons, who enjoy the status of protected persons, have the right to organize espionage activities in Albania. As an Albanian patriot, my hair stands on end out of anger and shame that my Homeland has failed to take action when a former terrorist organization like the MEK sets up an espionage network that even collects information about Albanian citizens within the territory of the Republic of Albania, as if it were a godless land.

It is a great shame that we Albanians pay taxes, among other things, so that SHISH protects us from such activities by foreigners, moreover, that we

are dealing with members of a former foreign terrorist organization! SHISH (Albanian Intelligence Service) has a legal obligation to conduct counterintelligence activity. I publicly ask both the homophone Greek-speaking man and Bahri's lover what SHISH has done to put an end to what is known to be the openly illegal activity of the Rajavi Cult in Albania?! How do they justify the salary, which our SHISH operatives receive, but who do not perform counterintelligence duties for which they are obliged by law?! Creating such an espionage network in Albania, does it harm the national security of my Homeland or does it hang up the bag of national security, that this former terrorist Rajavi is regarded as a good woman with VIP friends and former international VIPs?! Such a cowardly and miserable attitude of our SHISH certainly lowers the prestige of my Homeland (and theirs) in the eyes of other NATO member countries, our honourable allies. When some old men and women of the Rajavi Cult graze as they please in Albania, how likely is it that SHISH will carry out the tasks assigned to it by the law in the field of counterintelligence in respect to revelations about unfriendly countries toward Albania? How likely is it that this kind of SHISH will protect us, the Albanian citizens, from the espionage activity in Albanian territory of the rankings of BIA, EYP, GRU, etc. etc?!

After these rhetorical questions I close my article with the Latin phrase: "O tempora o mores"!!!! (Oh the times! Oh the customs! – Cicero)

Heshmat Alavi Deeply Humanitarian Transformation for Biden

Jan 22, 2021

The MEK's click farm in Albania has removed all pro-Trump posts from their sites and magically transformed into human rights advocacy as if they are supporters of Biden now. To the point that Heshmat Alavi has now become a deeply humanitarian human rights advocate.

America.

MEK leaders have scolded the members saying 'we're not in Tehran because you are not ideologically committed enough. Ideological classes and discussions have begun in which members are told about 'how at the start of Islam, the people sacrificed themselves for prophet Mo-

needed.

Some of the older members have got it and understand that every time the leaders don't succeed, they introduce some new lecture to bamboozle the members. Some members are asking 'what else can we give? We gave our kids, our families, our time, energy, our thoughts and emotions, we have nothing

[MEK are now giving advice to Biden](#), whereas before they were totally against him. Members outside the click farm have been instructed not to talk about politics in spite of all the things that have happened in

hammad and how you haven't sacrificed enough'.

Basically, members are told: 'It's your fault we're not in Tehran now. Your leader did everything they could, but you are not doing what is

left'.

Alongside these grumblers are those who don't buy it at all and who question 'why, we were promised that if we stay for four years Trump will start a war and we will win'. That didn't happen

so the leaders are keeping these critics separate because they don't submit to the leaders' commands. They are being threatened that 'there is no vaccine out there if you leave, just wait, we will soon have the vaccine and then you can go'.

But as critics point out, since 2003 they have been creating false deadlines to prevent people leaving.

* * *

MEK Albanian Click Farm Likely Source of Pro-Trump Proud Boy Email Spoof

Juan Cole, Common Dreams,

October 22 2020:...

The People's Jihadis (Mojahedin-e Khalq or MEK, MKO), sometimes listed as a terrorist group by the US State Department, wants to overthrow the Islamic Republic, is active inside Iran and could easily set the government up in this way. Or I'm sure that Saudi or other anti-Iran government hackers could route the emails through an Iranian server or spoof an Iranian internet service provider. But, really, guys, intelligence analysis isn't just tracing an ISP.

You have to know geopolitics to know if something is plausible. **MEK Albanian Click Farm Likely Source of Pro-Trump Proud Boy Email Spoof**

MEK putting pressure on former members in Albania

2021/01/09

Outside the camp, [MEK are putting pressure on some members](#) who don't want to live with MEK but are getting paid to stay on the sidelines as supporters.

MEK has agreed with the Americans, Albanians and UNHCR to be responsible to pay for their members. Now they have corrupted officials in Albania to not only not mention this agreement, but to also deny dissenters ID cards and work permits if they leave MEK, and to put all kinds of obstacles in their way so they don't contact their families for support. Now they have cut their money as well.

Last week we heard about the latest victim of the freshly humanitarian MEK's treatment of its members. **Mansour Barahoui** is a MEK member living outside the camp. Nobody knew he was out until MEK denounced him in an official statement on their sites. MEK declared 'We asked him to take a stance against the agents of the regime (his family who have been trying to contact him), he hasn't said anything therefore we have cut his allowance (around \$200 per month in LEK).

In a matter of only a few short weeks, Barahoui has gone from publicly labelling the BBC as "agents of the Iranian intelligence services" for reporting about Saddam's POWs in MEK, to now being labelled an agent himself for refusing to denounce his own family who want to contact him.

Commentators in Albania say MEK are withdrawing payments because of panicking that the Biden administration won't put pressure on the Albanian government like the Trump administration did. They are in the process of pulling themselves together to face an uncertain future. Inside they conduct ideological brainwashing work, outside they pressure dissenters to come back to them.

Meanwhile over the past few weeks, every 2-3 days someone escapes the camp and in spite of their difficulties – they say they thought they would come out and die – they have announced their separation from MEK. Also, every 2-3 days a death due to COVID-19 is announced. But those who are escaping the camp say that MEK don't announce even a third of the deaths. They bury them inside the camp, and there are many more than they say.

ceo@nejatngo.org

www.nejatngo.org

About Nejat Society

Nejat Society was founded by some former members of the Rajavi cult to release their friends who are still mentally and physically captive inside the Cult, and assisting their suffering families waiting for them in Iran.

MEK AND CHILDREN

Nejat Society has published several articles describing the situation of the [children of MEK members](#) who suffered various abuses.

In 1990 the Rajavis separated children from their parents who had already been forced to divorce the previous year.

The children were dispersed, mostly to supporters of MEK living in Europe and North America. The 'fortunate' ones never had contact with their parents again. The 'unfortunate' ones were returned to Iraq as teenagers and trapped there as soldiers.

Several 'committed suicide' (aka MEK murdered them) due to their dissent.

Appealing to the UN Committee on Enforced Disappearances

Nejat Society continues its activities in campaigning for the families to be re-connected with their loved ones in MEK.

Nejat is also appealing to the UN Committee on Enforced Disappearances to investigate and pursue justice for the 'disappeared' MEK members.
