AXIS OF RESISTANCE AND THE WEST

Massoud Khodabandeh,
MidEast Discourse,
February 19 2022:...

The KSA has of course been backing the enemies of Iran for years (for example, Saddam Hussain during the 8 years of war and financing and supporting anti-Iranian terrorist groups like the Mujahedin Khalq and others) to balance regional power. Even though Iran has not been the cause of imbalance or at least not as persistently.

Confronting Iranian interests in Iraq, Syria, Lebanon (the axes of resistance if you will) and confronting Iran in Yemen have always been on the Saudi agenda. But although there has been push and pull, it is clear that Iran is not the loser in this confrontation on either front, and the KSA is not getting the Western backing she hoped for.

backing from former Iraqi dictator Saddam Hussein. Out of the nearly 17,000 Iranians killed in terrorist assaults since the Islamic Revolution, about 12,000 fell victim to the MKO's acts of terror.
